

Compassworks

MOOR THAN NAVIGATION

We deliver quality training in: •

- Traditional map and compass skills
- Poor visibility and night navigation

We also offer:

- Activity leisure breaks
- Corporate team building events

Compassworks is a small, quality driven company, operating in the Dartmoor National Park area. We specialise in the provision of land navigation skills courses, activity leisure breaks and corporate team building.

Whether you are an absolute map-reading novice, or you wish to improve your existing knowledge, look no further than Compassworks.

Our aim is to develop the skills necessary for people to navigate safely around what is regarded by many as some of the most difficult map-reading terrain in the UK - Dartmoor. However, the techniques learned on Compassworks courses can be applied anywhere in the world.

Our range of courses can take you from training under supervision, to "flying solo" in poor visibility or at night. Depending on the skill level you want to achieve, Compassworks can get you there.

Compassworks offers team building activities, each tailored to meet the needs of the participants and our activity leisure breaks have proved increasingly popular with individuals, couples, and small groups.

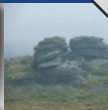

You don't need to own a map, compass or GPS unit to take part- Compassworks will supply all the "navigation tools" you will need! What's more, refreshments and lunches are included on most of our events. All you need is suitable outdoor clothing, footwear and motivation!

Visit our website or telephone us to find out more about what Compassworks can offer.
